

OIL, GAS, RESOURCES AND MINING

Rutan & Tucker attorneys represent exploration and production (E&P) companies, mineral owners and financing sources in acquisitions, dispositions, joint ventures, operating agreements, financings (both equity and reserve-based lending), leases, and conveyances or reservations of royalties and net profits interests. Should any oil and gas clients become involved in a dispute over mineral ownership, lease rights, royalties or similar matters, our trial attorneys assist these clients in navigating the proceedings.
